

Science Research Board Meeting of September 17, 2006

Held at the home of Diane Glass. Diane, Gita, Michael, Linda and Jean in attendance.

Discussed reimbursement policy. Reimbursement period will run June 2 to June 1 up to \$200 per year per student. Paper work must be submitted by June 1. Note will be sent to Yahoo group (parents) regarding this policy which will state in part "To help cover the expenses incurred by the students that are not covered by the budget."

For publicity, the press will be invited to a meeting of the Yorktown School District Board of Education Meeting when the new printer (possibly laminate) and ink cartridges will be presented to Michael (from the large donation proceeds). We will invite Lanning Toliver (sp?) 694-5231.

We will invite the senior students' mentors to this year's end of year dinner. This allows for networking. We will have a "Honor the Mentor" theme. Possible dinner nights are April 26, 19, 25 and 18 in preferential order. There will be a program with students listed thanking their specific mentors. Jean will inform Sherri Hughes about the dates.

The new printer will be a poster printer which will be in lieu of a color printer. Michael prefers the poster printer for competitions. Gita will check with Sloan Kettering regarding specs and prices. Michael will check with Regeneron as well.

The next Board of education Meeting is October 16. Diane will get on agenda for Science Research P.R. and to request permission to gift printer.

Michael will get us list of new parents.

Thursday, October 26th will be first Parent Science Research Meeting- 7PM

Linda Cooper asked Michael and students to come on her T.V. show. Diane will ask Gita to represent S.R. Foundation and to appear on show as well. Diane will invite Linda to attend October 26 meeting.

Meeting adjourned.

Respectfully submitted,

Jean Spadaccia
